Forecast for Wednesday 13 Jul 2022

Weather: Low cloud and the odd light shower possible during the early hours but becoming dry with clear spells by the end of the night. Some cloud around during the morning but this breaking to give sunny spells at times. Staying dry for the remainder of the day and becoming mostly sunny. Higher level cloud may turn the sunshine hazy at times.

Chance of cloud-free hill tops above 800m: 60% becoming 90%.

Low Cloud and visibility: Areas of cloud above around 200-300m until mid-morning. This lifting above 600m and then clearing all summits by late morning. Very poor visibility in the cloud but generally very good visibilities with much clearer air compared to on Tuesday. Distant hills and landmarks will be visible by the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Very high levels of UV will give a risk of sunburn. Sun protection and plenty of water is advised if you are planning on spending the day in the mountains.

Forecast for Thursday 14 Jul 2022

Weather: Often cloudy during the morning with a few sunny intervals. A slim chance of a light shower during the middle of the day with more in the way of sunshine developing by the evening.

Maximum wind: North-westerly 15-25 mph.

Chance of cloud-free hill tops above 800m: 60% becoming 90%.

Low Cloud and visibility: Periods of cloud above 700-800m during the morning, slowly lifting, thinning and breaking. Becoming patches above 950m during the afternoon with most summits clearing. Very poor visibility within cloud but otherwise very good visibility with excellent air clarity.

Temperature: **Valleys:** Plus 9 Celsius rising to plus 20 Celsius.
At 800m: Plus 8 Celsius rising to plus 12 Celsius.
Freezing level: Well above the summits.
